## *The Porning of Society*

*Are we living in pornoland and a sex obsessed culture?*

### **Does porn cause crime or is it harmless behavior for consenting adults?**

"Don't turn up your nose," said Jack Kyser, chief economist of the Los Angeles Economic Development Corp, "this is creating jobs for people, a revenue stream, and though you may not personally approve, there's a huge market out there." There are an estimated 11,000 hard-core porn movies produced each year in the USA. It is a \$12 billion industry with 200 companies in the San Fernando Valley that employ 6,000 people. This industry can also produce some unsavory and seedy characters. One extreme and repulsive example is serial killer Ted Bundy who commented on his way to the execution chamber, "you are going to kill me and that will protect society from me. But, out there are many more people addicted to pomography and you are doing nothing about that."

Our daily news is peppered with stories of adultery and various forms of fomication that has become a way of life. We are no longer revolted or surprised by the sexual dysfunction in our society. The government of Uganda has witnessed a dramatic rise in rape cases

and has embarked on an anti-pomography campaign. There experience found some individuals get addicted gradually, but for others it is similiar to the rapid cocaine addiction. Increasing numbers of "normal" people become addicts and are susceptible to various kinds of deviant sexual behavior, and in extreme cases become criminals or rapists." They found that pomography is rampant in their society and everyone is exposed to it by the tabloids or the Internet.

New York's, Son of Sam mass murder, David Berkowitz stated, "there was part of me that could not stay away from evil."

He remarked that his twisted behavior had its beginnings in the porno world when he was lonely and depressed. Bill Margold a veteran pom star now counsels young people and warns them that, "the appetite for pomography seems to be insatiable."

Defenders of pomography argue it is not harmful and should not be regulated or banned, but 87% of child molesters admitted to modeling explicit pomography.

*Pornography is fake and needs to be viewed like a cartoon says, porn advocate Nina Hartley! If that is true, why is there a 350,000 sex crimes recorded each year.*

Hollywood Brat Girls  
Paris Hilton & Britney Spears

The media circus around these two misguided stars presents a negative role model experience for our youth. Paris was charged with DUI and spent time in the slammer as her life spun out of control. Britney lost her children and seemed to be losing touch with her reality.

The media takes advantage of their every mistake and misadventure. Our youth want to dress, act and look like these two celebrities, and it is a difficult battle for parents. Television and media do not celebrate the Brady Bunch image and the Hollywood icons have a powerful influence on our kids.

Dr. Amy Beth Taublieb, a clinical psychologists in Buffalo explained that pre-teens and teens adopt the characteristics that they lack. In choosing a supermodel to emulate, they may develop an unrealistic or harmful behavior. Bettie B. Youngs, Ph.D., author of the "Taste for Teens" series states that teens must not chase certain idealistic and superficial idols.

Hollywood morals and ethics have a huge impact on our youth and their culture. Although these two young ladies have been quite successful, other parts of their lives have been a disaster. How does their sexual exploits contribute to their own demise and that of many young people?

### Divorce - High Cost

CEO's wife wants \$53,000 per week! Marie Douglas-David told the court she needs this amount to meet her expenses. Her weekly costs include \$700 for limousine services, \$4,500 for clothes, \$1,000 for hair and skin treatment, \$1,500 for restaurants and entertainment and \$8,000 for travel and significant monies to maintain a Park Avenue apartment and three residences in Sweden. The couple accuse each other of having extramarital affairs for the collapse of their marriage. Jerome Price, a family therapist in Michigan remarked that most people marry in a haze of love, passion and sexual desire, but that fades in the real world.

Pope John Paul

This engaging and popular Pope completed 129 short writings between 1979 to 1984 and reviewed 1,043 Scriptures on human sexuality. It is a great mystery but sexuality was perfect before the "fall of man" and original sin. Sexual sin has twisted and distorted the gift of our bodies for each other. Our society needs sexual redemption to confront the misuse of human sexuality. We have a craving for love and attempt to find it in relationships that maybe outside the boundaries of God.

*Lust Takes and Love Gives*

"Two years ago, I had everything, says Michael Blagg, I had a great job, wonderful family, incredible wife and daughter. Everything was going perfect." He was convicted of the murder of his his wife (34), Jennifer and his six year old daughter, Abby. She has never been found.

***Did Porn Help Kill This Marriage and Jennifer and Abby?***

"They were kind of a poster-child sort of family," recalls Rev. Art Blankenship, who got to know the Blaggs through their small, evangelical church. "They just looked like the ideal couple. They were friendly, open, and people seemed to like them alot."

Both Michael and Jennifer were enthusiastic born again Christians and organized prayer for the congregation. He was a former Gulf War vet, decorated helicopter pilot. His mother viewed their relationship as the, "fairy-tale couple."

The murder of his wife and the disappearance of their child still haunts the community of Grand Junction, Colo. The police immediately noticed the unusual reaction of the husband during the first interview. He did not respond like a man who had his family disappear. Their suspicion grew in the days and months that followed as the evidence pointed to only one suspect, Michael Blagg.

The police learned that the accused had a serious porn addiction and was acting out sexual fantasy with his wife. She must have rebuffed his advances and was seeking divorce proceedings. He was also visiting escort services during their marriage. On the night of Jennifer's disappearance, he had been looking at hardcore internet pornography.

How did a previously responsible, loving husband, and father stray to pornography and deviate to the hideous crimes of killing his wife and daughter?

Internet pornography is increasingly being cited as one of the causes for our high divorce rate. (Edwin Feuler, The Naked Truth) Dr. Victor Cline a clinical psychologist with the University of Utah and author of "Pornography's Effects on Adults and Children" found porn is a major to minor contributor to sexual addictions. Social scientist Dr. W. Marshall discovered that almost half of rapists used pornography prior to their sexual offences. Other studies reveal that rapists and child molesters used porn immediately before or during the commission of their offences.

Dylan Klebold & Eric Harris  
Cold Bloody Murderers

10<sup>th</sup> Anniversary of the 13 Victims at Columbine High School from April 20th, 1999.

The Columbine High School murderers were regular viewers of violent and pornographic videos, they were also "soaked" in gory video games that tailored their twisted imaginations.

Reuters News Agency Headline

***"Man Who Killed Mounties, Wicked Devil."***

In March of 2005 the worst police killings in Canada's history shocked the nation.

I recall an Assistant Commissioner of the RCMP telling me regarding my search for the reasons for crime, that they would be quite interested in learning any new information which would explain the very complex problems of crime. I have since told her, that I found during my analysis a key "missing link" and they won't like it. Social science will rebuff it and people without faith may consider it nonsense. That is OK because if someone rejects the truth, it doesn't change the fact that it is still the truth. I know it is very difficult to accept unconventional sources. The human mind searches the logic and reason, but the spirit and heart rely on non-empirical data. We can't see the wind, but we can sense and feel it .We are more than our minds and bodies, we also consist of a soul and spirit. I had cast aside those invisible elements for many years, but I am fully and firmly convinced that we will never understand human behavior without considering the impact of the spiritual void in our lives.

We are born in this world physically alive, but spiritually dead. Many cannot believe that there is evil in people or in our society, but this fact is absolutely true. Our four members were murdered by an individual devoid of any Godly regard for his fellow man. Evil is very real and plagues our existence in this world. Every major religion professes and believes that evil is part of life on earth. This is the "missing link" in all our noble efforts to understand crime.

Mystery of Lawlessness

The crime rate is going down in Canada but the social lawlessness is going up. We all recognize there is something wrong in our society, but we just can't grasp the source for our unease. Put aside your doubt and skepticism for a few moments and pretend the Bible contains the answers and solutions to our complex problems. The Bible does not sugar coat the reality of evil or sin and offers a solution.

Billy Graham preached a message of hope and I finally understand!

Humanity's problems are too difficult for a human solution and no matter how much money we spend to fix the troubles or what new and helpful studies reveal, the root problem is found in the human heart. The Bible is very clear that man's heart leans towards sin, just remove our police from society and watch our communities collapse. Believe it or not, God tells us in the Bible that He is, "restraining" the full impact of evil on the earth. (2 Thessalonians 2:3) The Bible also teaches that there is an evil influence on humans and that purpose is to corrupt and destroy humanity. Two of human beings great weaknesses are money (greed) and sex (lust) and these two conditions are ruining many lives. Whether its porn or crime, there is a better, but rejected solution to deviance and criminality. Life is hard and full of challenges. Many of us struggle through this life without the spiritual power or Godly wisdom to impact our world or transform our personal life.
